OVERVIEW

400 SQFT

1 Bedroom

1 Bathroom

With a striking roofline and exterior siding built from reclaimed Wyoming snow fencing, the Wedge is the cornerstone of our models, combining a rustic feel with our sustainable, built-to-last mentality in one structure. Boasting impressively high ceilings under a timber and steel roof system and trapezoidal windows increasing in size from the back of the unit to the front, this spacious model fills with natural light while keeping privacy in mind.

Solid surface counter tops paired with high grade $\frac{5}{8}$ " cabinetry and soft close doors and all the necessary hardware, fixtures, and appliances make the space feel luxurious yet convenient — we take care of the complicated decisions so you can focus on furnishing. The bathroom maximizes space and efficiency with a European style glass shower, full tile in the bathroom, high-end fixtures, and a closet large enough for both an optional combo washer/dryer and a linen shelf. With a fully covered front deck, sliding glass entryway, and stunning outdoor deck off the back, this model provides an unmatched opportunity for entertaining and relaxation. The Wedge is designed as a 400 sq. ft. home but has the ability to be a modular design.

AMENITIES

- 10.5ft wide x 38ft long
- Sliding glass door opens to deck
- Sleeps up to 4 Adults
- Bedrooms sized for queen or king bed, two side tables
